

~~Data Pump~~ Test Waveform Generator

status May 15th, 2003

Stefano Rapisarda

Test Waveform Generator project status:

- 1) Change of name from "Data Pump" to "Test Waveform Generator"
- 2) New web page as repository of info on the project
http://www-ese.fnal.gov/D0Cal_TWG/
- 3) General idea on the design (mother board, DAC cards, interface cards) and request for inputs/suggestions
- 4) Preliminary document availability (I'm still working on it and merging Gustavo and Vince ideas/documents in it).
