TWG Prototype System status

Software:
- Working on modifying the software to control the SCL Teststand at FCC. This will provide a platform to test the TWG/SCL synchronization features.
  Note: the SCL Test-stand was assembled for the development and support of SCL Fanout, Hub Controller and the SCL RXs/TXs.

Hardware:
- No relevant changes to report.

Work in progress:
- Modification of Xilinx firmware to use SCL timing for triggering [Report Dec 11 2003].
- Implementation of filtering (in the amplification stages) to limit bandwidth of output signals [Report Nov 13 2003].
- Investigating improvements of the system clock (currently 40 MHz) [Report Oct 30, 2003].
- Documentation/web page updates.

TWG System

Work in progress on:
- Specification proposal.
  Comments and ideas are very welcome [Report Nov 13 2003].
